

Horizontal Scrap Scarf on Circular Needles

(4 ½ inches wide and about 60 inches long)

This pattern uses many pieces of yarn too short to make into one scarf, but when combined with other pieces, makes a very beautiful “scrap scarf.” Use your creativity to design your scarf.

MATERIALS:

Size 13 circular needles (at least 24 in)

Size 15 or 17 needle for Cast On and Cast Off

Row 1 (Cast On) and Row 19 (Cast Off): One, 23-yard ball of heavier weight yarn or two, 11+ yard balls of two different heavier weight yarns

Rows 2-18: ~7 ½ -yard pieces of scrap yarn (a mix of colors and textures that look well together)

DIRECTIONS:

Arrange pieces of yarn on a table in front of you. You can put them in some order (mix light and dark yarns, alternate textures, etc.) or use them all randomly.

Using the cable-cast-on method, cast-on 150 stitches using the heavier weight yarn and the Size 15 or 17 needles to keep the edge stitches loose. Leave a 7-8 inch tail on both ends to use as fringe.

Tie on next yarn to the cast on yarn, leaving a 7-8 inch tail at the beginning. Knit one row and tie this yarn to previous row leaving a 7-8 inch tail at the end. Tie on next yarn to the row just knitted, leaving a 7-8 inch tail. Knit one row and tie this yarn to previous row leaving a 7-8 inch tail at the end. Continue in this manner until you have used all 17 pieces of yarn.

***HELPFUL HINT:** to avoid confusion never put your knitting down at the end of a row. Always knit a few stitches on the next row before taking a knitting break.*

Cast off using the heavier weight Yarn and the Size 15 or 17 needles to keep the edge stitches loose. Trim fringe to ~ 6 inches.

Please sign your first name on the Handmade tag and attach it to your scarf.
